

SPECIALIST IN COOKING WILL SHOW HOW TO PREPARE FOOD

The Gettysburg Times is particularly fortunate in being able to present Mrs. Mabel Bowen as the lecturer and demonstrator at the 1950 cooking schools, the first of which opens at the Hotel Gettysburg annex next Tuesday night. Mrs. Bowen's background embraces a wealth of experience which makes her one of the outstanding experts in this field in the country.

For many years she has conducted cooking schools for hundreds of newspapers, among them some of the largest metropolitan papers in the United States. Much of her work has been in New York state and Pennsylvania. She will come to Gettysburg from Uniontown, Pa. During the winter she conducted numerous cooking schools for leading newspapers in Florida.

Teach Short Cuts
According to Mrs. Bowen, the tempo of the times has changed the practices of homemaking, and she will endeavor to meet present needs of the home in her lectures during the seven cooking school sessions in Adams county.

Women no longer find it possible or practical to spend long hours in the preparation of complicated dishes for smaller families. The cooking school menus will be designed to teach short cuts in food preparation and there will be suggestions for "stretching" the more expensive foods without losing the nutritive values.

Borough Police Officer Charles W. Culp, Jr., who is also chief of the fire police, warned that unless firemen used more care in driving, there might be a serious accident, particularly at Middle and Baltimore streets. He cited several "close" ones.

"You've got to quit speeding to the engine house," he said. "If you kill or cripple someone, you'll never live it down. We've been close to having serious accidents several times."

President Levels New Blast At Senator McCarthy Today

Washington, April 13 (AP)—In a new blast at Senator McCarthy, President Truman today questioned whether it is possible to label the Wisconsin Republican.

Mr. Truman's remarks came at a news conference when he was asked about a recent statement by Senator Taft (R-Ohio).

Taft had said the President libeled McCarthy by cracking at Key West, Fla., recently that McCarthy was the Kremlin's biggest asset in the United States.

"Do you think that's possible," Mr. Truman fired back at the questioner. And he said it was all right to use direct quotations.

Mr. Truman went on to say he hadn't read all that Taft had said; that he doesn't read all the political columns of all the people running for re-election.

Taft made his statement about Mr. Truman, McCarthy and libel in

DR. TILBERG IS APPOMATTOX SPEAKER HERE

"Appomattox meant that this great democracy could survive internal dissension and rise from conflict to greater strength," Dr. Frederick Tilberg, historian at the Gettysburg National Military park, told 60 members of the Sons of Union Veterans and their ladies gathered Wednesday evening at the GAR post home, East Middle street, for the annual Appomattox Day Dinner of the organization.

"From the time of the adoption of the constitution in 1787, North and South discussed the form of the Union with increasing bitterness," Dr. Tilberg noted. "Divergence of economic interests became more pronounced throughout the early decades of the 1800s. During that period the north and west tied their by railroads, expanded in industry and commerce; the South, with the new cotton gin, became a powerful agricultural power."

RED CROSS IS WITHIN \$4,885 OF 1950 GOAL

The Adams county Red Cross was within \$4,885.89 of its \$12,742 goal today, with a number of districts still to report.

Heads of the drive, Richard E. Dreas and Harry D. Ridinger, expressed the hope that all collections may be turned in within the next week or ten days.

New Oxford completed its drive Wednesday, with Ruelle Wolf, chairman of the district, reporting collections totalling \$714.35 for the district. That amount was \$50 less than the quota for the area, but Chairman Wolf pointed out that it represented contributions from a larger number of people than in any previous drive.

Getting Better Coverage

That fact of contributions from a larger number of people is being reflected throughout the county, the drive officials said. So far, 2,700 individuals have given \$1 or more to the Red Cross drive, and judging by previous years, this year's campaign should have the largest number of contributions in history.

Contributions have been lower on an average as far as individuals and industries are concerned, while clubs and organizations have continued their contributions generally on the same scale as last year, the reports so far show.

One reason for the larger number of individual donations is the larger number of solicitors conducting this year's campaign. Three hundred and seventy-five individuals are conducting the campaign, the largest number ever secured for any Red Cross drive.

The products corporation claims that in July, 1949, it turned over to the storage company quantities of fresh frozen strawberries and raspberries and that those spoiled consisted of 18,704 12-ounce packages of red raspberries, 18,832 12-ounce packages of black raspberries, 1,564 30-pound pails of strawberries and 17,037 12-ounce packages of frozen strawberries.

Say Woman Driver Blocked Firemen

A charge of failing to yield the right of way to fire apparatus enroute to a fire, was filed with Justice of the Peace John H. Basehore this morning against Mrs. D. Moran, Hazleton. A 10-day notice will be sent.

The charge was filed by Borough Police Officer Charles W. Culp, Jr., who is chief of the fire police. Firemen obtained the license number of an automobile later found to be registered in Mrs. Moran's name, which blocked their progress on Steinwehr avenue when they were answering a call at Marsh Creek Heights Tuesday afternoon.

Authorities said the automobile stopped on the east side of Steinwehr avenue, at the approach of the fire truck, which was unable to proceed because of a road block on the west side where repairs to the road are being made.

STATE AND BORO POLICE CONDUCT TRAFFIC CHECK

State and borough police cooperated Wednesday night and early this morning in a local traffic check which Chief of Police Robert C. Harpster said netted one drunken driver, one motorist driving without an operator's license, and 30 automobiles with defects of various kinds.

Participating were State Policemen George Evanko, Frank Yercavage, Howard Mackert and James Treas. Those from the borough police force were Patrolmen Paul Shealer and Daniel Miller.

Basehore, Elmer Curran, Gettysburg R. 4, will be charged by state police for not having an operator's license.

State and borough police checked vehicles on York street near the borough line, while Sgt. Duhrkoff and Chief Harpster made checks on other streets. The checks was made between 8:45 p.m. Wednesday night and 2 a.m. this morning. Other checks will be made later in the summer.

NEW UNKNOWN SOLDIER TO BE SELECTED FOR MAY 30 HONORS

Washington, April 13 (AP) — An American serviceman resting in an unmarked grave somewhere overseas will be picked next year to be entombed in Arlington National cemetery as the "unknown soldier" of World War II.

He may be a soldier, sailor, marine, coastguardman or airman, white or negro, Protestant, Catholic or Jew. But he must be one of the 5,000 unidentified American dead of the last war—buried now on foreign soil.

The final selection will be made at Independence Hall in Philadelphia on the morning of May 26, 1951. The body, to be picked from among six, will be enshrined beside the remains of the unknown soldier of World War I, as ordered by Congress.

Outline Procedure

Elaborate precautions will be taken to insure that the unknown serviceman of World War II is actually identifiable. This is the procedure outlined yesterday in a Defense Department announcement.

Each of the 5,000 unidentified bodies will be given a code number. The numbers will be placed in capsules, and the capsules divided into 16 containers—one for each U. S. military cemetery abroad. From each container one "principal unknown" and five "alternates" will be drawn.

Then, from the Alaskan command and each of the five overseas theaters — Europe, the Mediterranean, Africa-Middle East, West Pacific and Mid-Pacific—one body will be selected for removal to Philadelphia.

The name of the person who will make the final selection in Philadelphia has not been disclosed. As soon as the choice has been made, the other five bodies will be returned overseas for reburial.

The unknown will lie in state in the rotunda of the capitol in Washington, on May 30, Memorial Day, the remains will be entombed in Arlington.

Company's Defense

The defense indicated that it will seek to show that the berries were spoiled when they were delivered to the Harrisburg plant and that the rise in temperature was not responsible for the spoilage, according to Mark T. Milnor, counsel for the storage company. It will also be contended that the berries were either spoiled when delivered at the storage company or while they were in transit. The storage company will also claim, Milnor said, that berries in storage for other concerns were not affected by the rise in temperature at the storage plant, and that some berries were delivered by the plaintiff in Delaware that were not properly fed and were later said to be unfit for use.

Moser was slightly hurt but his wedding to Miss Ann Wagerman, of Emmitsburg, occurred later that day at Westminster.

The suits allege Dunkinson was an unlicensed operator driving an automobile belonging to his employer, Swartz. EASTER SEALS BRING \$1,391

Easter Seals sales in Adams county up to April 4 totaled \$1,391. Dr. R. S. Saby, president, reported to the directors of the Adams County Crippled Children's society at their April meeting Wednesday afternoon. Dr. Saby described the report as "very encouraging" and said it compares well with the 1949 campaign. Additional contributions are expected, he said.

The board accepted with regret the resignation of Paul E. Whitmoyer as a member of the board. He said recreation program duties here make it impossible for him to attend the board meetings.

The directors authorized Miss Mildred Eden, state nurse, to secure transportation at the society's cost for a crippled county boy to the children's hospital at Elizabethtown. His leg brace of a special type is broken and can be repaired only at the hospital, Miss Eden said.

Miss Eden also told of arrangements that are being made for 40 crippled children from this county to attend state clinics to be conducted May 3 and 4 at the Chambersburg and Carlisle hospitals.

REPORT PEACH

secretary of the Pennsylvania Cherry Growers' association, reported on the recent cherry pie baking contest. Robert Lott, Aspers, secretary of the South Mountain Fruit Research laboratory, reported on a meeting of the advisory committee at the Arendtsville lab.

Dr. R. S. Kirby, extension plant pathologist, said cherry leaf spot is present on old leaves and is threatening to give early trouble. Cultivation of the orchards to destroy old leaves together with special sprays with Fomate or wettable sulphur in full bloom were suggested to help control leaf spot. He emphasized that the time to stop brown rot infection is during the pink through petal fall period. Cultivation to break the contact of peach mummies and prevent them from producing spores, together with protective sprays, should help prevent brown rot infection, he added. Mild weather in January and early February matured apple scab spores which are in need of moisture and favorable temperature to cause trouble. Fruit growers were warned of the extreme importance of the pre-blossom sprays in preventing heavy infections of scab.

J. O. Pepper, extension entomologist, discussed the variable bud development together with the numerous spray programs that are being employed by growers to combat orchard insects. Green and grain aphids are fairly well hatched with some rosy aphids beginning to appear. The red mite situation, he said, is serious because of the large number of eggs that can be found on the twigs and limbs of trees. Because of cold windy weather special spray treatments may be required. Pepper requested growers to use caution with spray materials to protect their health. One hundred fruit growers attended the meeting.

cultural economy based on slave labor.

"It was inevitable that the growth of the nation westward would turn the balance of power one way or the other, and as a result war burst upon the nation at Fort Sumter on April 12, 1861.

"Slavery and state's rights were of secondary importance as the leaders of the North sought to end the conflict. Lincoln's great purpose was simply the preservation of the Union.

Shows Old Pictures

"Gettysburg led directly to Appomattox. After the failure of Pickett's charge here, the war could only end at an Appomattox. The question after Gettysburg was merely how long the South could prolong the war, there was no hope after Gettysburg that the South could win. The end came on Palm Sunday, April 9, 1865."

Doctor Tilberg described the defenses at Gettysburg and showed pictures taken during and immediately after the battle here.

Col. Alfred E. McKenney was master of ceremonies. A turkey banquet was served by the Auxiliary of the SUV. The dinner and program jointly observed Appomattox Day, April 9, and General U. S. Grant's birthday, April 27, 1822.

Bullets Lace Johns Hopkins 18-6 For Second Triumph; Albright Here On Saturday

Gettysburg college's baseball team won its second victory in as many starts by smothering Johns Hopkins 18-6 in a seven-inning contest at Baltimore Wednesday afternoon.

Coach Ira Plank's outfit sewed up the contest in the first frame by tabbing five runs. After George Hare, who moved to left field for the game, drove Dick Weland and Tony Cervino over for the initial runs, Ditty Jones pounded out a homerun with Leroy Bixby and Hare aboard.

After picking up four runs in the next three frames the Bullets added six more in the fifth. Weland and Cervino walked and both scored on Hare's single to left. Eyster then singled to score Hare. Bitner walked. Eyster and Bitner tallied on Jerry Royals' single. Ronnie Fitzkee bunted safely, advanced on stolen bases and scored on a passed ball.

Fitzkee hurled the first five innings for the Bullets and yielded five hits and a pair of runs. Don Young twirled the final two frames.

Hare and Eyster each pounded out three hits for the Bullets, the former pounding in six runs while Jones also knocked in a trio.

The Bullets will play their first home game Saturday afternoon at 2:30 o'clock when Albright will play here.

Coach Johnny Law's Mt. St. Mary's college baseball team opened its season Wednesday afternoon by taking a double-header from Washington college 13-12 and 7-4 in Mason-Dixon conference games played at Emmittsburg.

Eight runs in the last half of the seventh frame gave the Mounts the first game, Sharpe singling home McLaughlin with the winning run.

The second game was called in the last of the sixth inning due to darkness when Washington had the bases full with two out which led to a protest by Coach Frank Apichella, coach of the Chestertown team. The score automatically reverted to the fifth inning which gave the Mounts a 7-4 decision.

Tigers' Fielders Ailing

Memphis, Tenn., April 13 (AP)—Because of injuries the Detroit Tigers aren't sure of their starting outfield for the American league opener Tuesday at Cleveland.

Their only fully sound regular is Johnny Groth. Hoot Evers' bad ankle "feels much better" but is questionable. Vic Wertz also has an injured ankle but he is back in action.

White Sox Doormat

Memphis, Tenn., April 13 (AP)—The Chicago White Sox team are the doormat team of the 1950 Grapefruit league. They have won five games and lost eight for an average of .385 against major league competition.

Perhaps the aging St. Louis Cards, with their gilt-edged pitching, again can make it close. Maybe Billy Southworth can threaten with his revamped Boston Braves.

More likely, the Brooklyn club with its speed, extra base power, run-making ability and tight defense has too much on the ball. Except for erratic pitching, the Dodgers are a well balanced team. They shouldn't lose unless they beat themselves with over-confidence.

Phils A Year Away

The Phillies, a real surprise package last year, probably are at least a year away from serious pennant contention. Pittsburgh should do better, if second baseman Danny Murtaugh bounces back. New York, minus some power but stronger in the infield, shapes up as a second division club.

Despite a fine showing in the Grapefruit League, it looks as though the only club Cincinnati can beat out is Chicago. The Cubs' youth movement hasn't had time to jell.

Here's the way it looks from here:
1. Brooklyn
2. St. Louis
3. Boston
4. Philadelphia
5. Pittsburgh
6. New York
7. Cincinnati
8. Chicago

Cold Weather Threat

Pittsburgh, April 13 (AP)—Cold weather threatened to force postponement of an exhibition between the Pittsburgh Pirates and the New York Yankees today.

Temperatures dipped several degrees below the freezing mark during the night and the Weather Bureau predicted a high of only 40 by mid-afternoon.

Casey Stengel said if the weatherman permits, he will start Ed Lopat. Manager Billy Meyer nominated Bob Chessman to oppose the American leaguers.

Giants Option One

Kansas City, April 13 (AP)—The New York Giants' roster was down to 28 today.

In optioning young Second Baseman Bobby Hofman to the Oakland Oaks of the Pacific Coast league yesterday, Skipper Leo Durocher's squad was cut to just three above the major league limit.

Mize Hits Homer

Pittsburgh, April 13 (AP)—Big Johnny Mize's first 1950 appearance as the New York Yankees' first baseman ran true to form—he still can club, but is slow in the field.

The veteran played five and a half innings yesterday against Cincinnati and, in the first of his three times at bat, wallowed a two-run homer.

Joe DiMaggio played four and a half innings, getting a double in three tries. His spring batting average is now .416.

BUSINESS CLUB

(Continued from Page 1)

Hauser referred to the relations between his company and the community. "Biglerville is a part of the company just as the C. H. Musselman company is a part of the town. Many of our employees live here. We are interested in their welfare and that of the town they live in. We want to see it grow and prosper."

Mr. Hauser referred to Biglerville as a typical small town with much in the way of tradition and sentiment. He stated: "We are proud of the fact that its location in the apple center makes our town known far and wide. We at the C. H. Musselman company hope the town appreciates us as much as we appreciate the town. We are getting better acquainted. There was a time when the company didn't take much part in community affairs. Now our employees are urged to participate actively in these affairs whether it be school, church, or Boy Scouts. We consider it a privilege to share in the activities and be a part of Biglerville."

Mr. Hauser pointed out several ways of helping and participating in community affairs. Engaging in cultural projects, open house, a joint industrial-community recreational program, including softball particularly, and contests such as hunting or fishing contests, support of all charity drives and the sponsoring of such projects as a garden club, community center, tree-planting program, park, town zoning, local paper or an apple blossom festival.

Club Gets Invitation

In reference to an apple blossom festival Mr. Hauser asserted that "such festivals have been successful in other apple towns. Such a festival brings attention to the town and its products. There is the argument that this is a busy time of the year. Then why not have a harvest festival, although it would not have the color of an apple blossom festival."

Mr. Hauser invited the Biglerville Business club to a luncheon meeting in the Biglerville plant cafeteria in September. This month was chosen to enable the club members to be shown through the plant when it is in full operation.

President Oscar Rice, Jr., presided at the meeting.

At one time or another in history, men made footwear out of wood, ivory, metal, textiles, straw, paper, rubber, raw skins—usually when there was not enough leather for soles and uppers.

PICKS DODGERS TO WIN NATIONAL LOOP PENNANT

By JACK HAND

Orangeburg, S. C., April 13 (AP)—This is the Brooklyn era in the National League. Unless the confident Dodgers trip over their own press clippings, they figure to win a second straight pennant.

Perhaps the aging St. Louis Cards, with their gilt-edged pitching, again can make it close. Maybe Billy Southworth can threaten with his revamped Boston Braves.

More likely, the Brooklyn club with its speed, extra base power, run-making ability and tight defense has too much on the ball. Except for erratic pitching, the Dodgers are a well balanced team. They shouldn't lose unless they beat themselves with over-confidence.

Today's Talk

By GEORGE MATTHEW ADAMS
SHUTTERS OF THE MIND

In my youth I lived moodily in small towns, and into the better homes that I was wont to enter, I usually discovered one room—they called it the parlor in those days—that was habitually dark, because of the blinds with shutters that kept out the light. No matter how well furnished that room might have been, to me it felt like a gloom, for there was no light allowed to give it cheer.

People have minds like those parlors, with blinds and shutters that shut out the light in the form of ideas, truths and knowledge. None of us are inspired by contact with such minds, for we see only darkness there, and what is there is only for exhibition purposes to the ignorant, who wouldn't know the difference anyway!

Few homes these days have those old fashioned blinds and shutters. People have learned that there is health in the light and in the sunshine. The so-called parlor nowadays the living room, where the family and friends gather for mutual enjoyment and helpfulness. Today we are not afraid of the light in our homes, but there still remain those who are afraid of the truth, and so shutter their minds to it.

Note that this word shutter is made up of the one word shut, which means to keep closed or stay out. We can almost read this word, as a sign, on many people's minds, as we talk to them. They don't want the light to come in. It might show dust within, or awful neglect—as it probably would. They don't want any new light. They prefer the dark.

The tendency, in all new homes and business buildings, is to give more light—no shutters. And that is the tendency in all our literature and all educational enterprises—to give people the light, so that they may know more and the better serve their time. There was a day when a book like "The Origin of Species" created a sensation. It opened the shutters to the new knowledge, as so many such books are doing today, but not so dramatically.

When Oliver Wendell Holmes wrote that poem, "The Chambered Nautilus," he referred to "thine outgrown shell." A suggestion to eliminate the dead and useless—to do away with all shutters to the mind.

Tomorrow Mr. Adams will talk on the subject: "Love Isn't Blind." Protected, 1950, by The George Matthew Adams Service

HAIR APPOINTMENT

Young man when you are married for your wife you'll often wait.

But for a hair appointment she won't be one minute late. Don't ever get the notion you have powers that can persuade.

Your partner to forget it once a hair appointment's made.

Invite her down for luncheon.

"Not today," she will reply, "I am going to have a hair-do and it takes an hour to dry. And another hour to set it. I don't like to tell you this, A hair appointment's one thing that I really mustn't miss."

No bridge game, no canasta on that most important day;

No shopping trip; no luncheon and, of course, no matinee.

You will learn it when you're married, he she either well or ill.

If she has a hair appointment keep that date she surely will. (Copyright, 1950, Edgar A. Guest)

BEAUTY SEEKS REFUGE IN U.S.; BOLTS WEDDING

Tulsa, Okla., April 13 (AP)—A Bolivian beauty who fears marriage to a man "I can never love" begged immigration officers for permission to stay in the United States.

Mireya Urguidi, 22, pleaded yesterday with Naturalization Chief J. C. Stewart to extend the six-months visitor's visa. The permit expires in June.

She says a return to South America would mean marrying her father's friend—a man twice her age to whom she has been betrothed since birth. She did not give her names. She told in a soft accent, her dark eyes often tearful, of a hurried departure from her Cochabamba, Bolivia, home in the midst of wedding preparations.

Mother Aids Daughter
"I had told my father many times that I respected the man he had chosen for my husband, but that I didn't love him," Mireya said. "My father wouldn't listen to me because it is the accepted custom of our family for the father to choose husbands for the daughters."

"I even pleaded with the man, who is a wealthy diplomat, to release me from our engagement, but he refused and it could not be broken. He said I would have to marry him."

Mireya's mother, "more interested in my happiness than my marriage," gave her money to come to this country. The American consul suggested the home of an acquaintance in Tulsa.

"But my father will never forgive me and he says I cannot come home unless I marry his friend," the girl told Stewart.

Say Southern Spud Shippers Break Law

Harrisburg, April 13 (AP)—Some southern potato shippers are violating the Pennsylvania food laws in sending artificially colored potatoes here, the state Agriculture Department says.

The department said the southern shippers are dressing up their spuds with a red-colored wax, which although believed harmless, indicates a certain "deception."

"In some cases," the department said, "the added color which x x x is intended to make the product more attractive to the eye, tends to make the potatoes appear of great value in covering up defects."

SOFT COAL HIT BY CURTAILED PRODUCTION

Pittsburgh, April 13 (AP)—The nation's soft coal industry is suffering the slings of curtailed production today while even greater woes are foreseen in the immediate future.

Industry spokesmen predict spreading unemployment and a chain of mine closings as a result of reduced coal output and the inroads of competitive fuels.

The nation's 8,000 bituminous (soft coal) mines produced a record-breaking 631,000,000 tons in 1947. Now they are reverting to a normal market estimated at around 400,000,000 tons. Last year 430,000,000 tons was dug despite several strikes.

Many high cost or low quality mines already are being squeezed out. And thousands of miners are joining the ranks of job hunters. There are 400,000 soft coal miners in the United States.

Many To Be Jobless

The National Coal association estimates 50,000 coal miners will be jobless in coming months. Another 50,000 transport workers, who haul coal from mine to market also will be laid off, the NCA predicts, as the result of oil imports alone.

Natural gas and fuel oil continue to creep into fields once dominated

by coal. Railroads are changing from coal burning locomotives to diesel engines.

In West Virginia, where 110,000 miners earn their living in the pits, unemployment is up to an estimated 6,000 among diggers in the state's southern fields.

Unemployment and mine closings have touched Pennsylvania lightly so far but coal industry spokesmen look for heavy effects in coming months. To date, about six mines in Central Pennsylvania have closed, idling around 600 diggers.

WU Stumped By 8-Year-Old Girl

Philadelphia, April 13 (AP)—Here's one of those belated Easter message stories. It was told today by Henry Ridewood, manager of a Western Union office here.

It seems that an eight-year-old who identified herself as Patricia Giano stopped off to send her mother an Easter card. It took her 10 minutes to compose the message: "Just want to tell you a happy Easter, your loving daughter."

The address didn't take so long: "Mrs. Sal Giano, Home, Philadelphia."

NEW WITNESS IN LATTIMORE CASE HINTED

Washington, April 13 (AP)—Another witness described as a former Communist may be called on by Senator McCarthy (R-Wis.) to supplement the Senate testimony of Louis Budenz in the Owen Lattimore case. McCarthy's investigators were reported to have talked to the prospective witness, but there was no indication what bearing he might have on the Senator's accusation that Lattimore is a top Soviet spy in this country. Lattimore has vigorously denied the accusation. Budenz, once a Communist and now a Fordham university professor, is McCarthy's key witness in the case. Budenz is to testify April 20 before a Senate Foreign Relations subcommittee looking into McCarthy's general charges of communism in the State Department.

The furor created by those charges was heightened yesterday by a clash between Chairman Tydings (D-Md.) of the inquiry group and Senator Lodge (R-Mass.), one of its members. Lodge scores Tydings. The dispute erupted when Tydings said he was holding up the appointment of Frederick Ayer, Jr., of Wenham, Mass., as an assistant on the inquiry group's staff. Lodge had suggested Ayer for the job. Tydings said he acted because Ayer is a candidate for the Republican nomination for attorney general in Massachusetts. "I do not believe that candidates for office, either Democrats or Republicans, should serve as members of our staff," the Maryland Senator said. Lodge shot back that Tydings had had three weeks to look into Ayer's record, adding that the action was a "gross discourtesy and injustice" to Ayer.

The name of the mystery witness, possibly along with one or two others, may be given to the committee by McCarthy in response to a demand that he furnish the group by Monday all of the evidence he has to support his Communist charges against the State Department.

Democratic members indicated privately they want to close the book on the accusation phases of McCarthy's cases then.

HARVARD HALL IS ROCKED BY AMATEUR BOMB

Cambridge, Mass., April 13 (AP)—A home-made bomb exploded on a window sill of Harvard university's Thayer Hall early today.

The blast injured one student, endangered others and threw 150 freshmen into an uproar. It shattered more than a score of panes of glass and blew out a window frame.

Robert Dobbie, 21, of Allentown, Pa., suffered facial lacerations when the window of his first floor room crashed in.

The bomb apparently was made of dynamite. Yard Police Chief Alvin Randall said he believed it was the work of pranksters.

"It was fortunate," he said, "that none of the students was killed."

The blast sent clouds of black smoke swirling skyward. Students piled into the yard in their night clothes.

Feared Lab Explosion
Fragments of glass covered Dobbie's head. The other students in the suite were uninjured. They were Dan Haskins, 25, of Wellsville, N. Y., and John J. Murphy, 22, of Elliott, Me.

Edward Moravec, 20, of West Bridgewater, Pa., had stepped out of the suite just before the explosion.

Yard police said the blast was so loud it led some students to believe the chemical laboratory had exploded.

Moravec, a freshman football star last fall, is a brother of Vince Moravec, former football captain. Moravec said he saw no one around when he left the suite.

Randall reported he found a lead pipe dynamite cap and black powder near the scene. He said he believed the powder was used to touch off the dynamite bomb.

WOMAN SLAIN IN GUNFIRE AT MINER'S HOME

Blairsville, Pa., April 13 (AP)—A 27-year-old woman died in a blaze of gunfire at a miner's home yesterday.

The miner, 27-year-old Mike Bellas, of nearby Josephine, is held without bail. Sheriff Paul Jeffries said he will file a murder charge against Bellas in the death of Helen Golinsky, 27, of Coral, his girl friend.

Jeffries quoted Bellas as saying, "I fixed her."

Argued Over Wine
The sheriff said the miner gave himself up a short time after the slaying at the Bellas home. The sheriff quoted Bellas as telling this story: Miss Golinsky, who had been going with Bellas, was visiting Mrs. Ann Bellas, the man's mother. Mike entered the house. He asked for a glass of wine, noting that Miss Golinsky and a neighbor, John Gresick, were drinking wine.

Miss Golinsky refused. A general argument ensued and Mrs. Bellas left the house.

Shortly afterwards Mike pulled a gun from under a sofa seat and fired five shots at Miss Golinsky. All took effect and she slumped to the floor dead.

Mike ran from the house. The neighbor, Gresick, summoned police. Shortly after their arrival, Mike walked into the house and surrendered.

3 KILLED WITH HAMMER, KNIFE

Huntington, W. Va., April 13 (AP)—A couple and their ten-year-old daughter were slain with hammer and knife early today and their home set afire.

Police cornered an 18-year-old son in the garage at the rear of the house. They heard moans and two shots. Survivors performed an emergency brain operation but held little hope for the boy's recovery.

Detective Axel Bryant said William "Billy" Blanks, Jr., a high school student, had murdered his parents and sister, then attempted suicide.

Investigators could find no reason immediately.

Firesmen stumbled into the kory setting when they answered an alarm that the house of William A. Blanks was on fire.

They found the bodies and four blades. The inside of the box-like house was a shambles.

The body of the girl was sprawled face up, right gown above her knees, on her slanting bed in the front upstairs room.

Blanks, 40, and his wife, Mildred, were found in the rear bedroom. Mrs. Blanks was on the bed, face down, and Blanks was on the floor near the bed. He lay stretched on his left side, as if he had attempted to escape the killer.

Police found a 16-inch blood-smeared kitchen knife and a ball-pen hammer in the house.

In the kitchen lay the family's pet dog, a Spitz. The animal's skull had been split open, and his fur showed indications of knife wounds.

DIES AT 100

Lancaster, Pa., April 13 (AP)—Mrs. Catherine P. Cramer, who on her 100th birthday March 4, said she

FIREMEN NAME

(Continued from Page 1)

Donald E. Folkenroth. Paul McClellan was dropped, and the resignation of John Fox accepted.

At the recommendation of the board of officers, which held a meeting prior to the regular fire company meeting, the appointment of a permanent investigating committee for new members was authorized, and Vice President William G. Weaver, who presided at the meeting, named Charles W. Culp, Jr., Emory Strausbaugh, Francis Smith, Carl Oyler and George E. Burgner. The committee was authorized to revise the membership application blanks.

Seven applications for membership were read and referred to the new committee for investigation. Secretary Menges said that with the three new members accepted at the meeting and the seven new applications, there were only two vacancies left in the fire company.

25 Units for Parade
The dismissal and the resignation leaves two additional vacancies. Active membership in the company is limited to 125.

Reports were received on the special committee to increase insurance protection for firemen, the committee for the Fourth of July parade to be held in connection with the 87th anniversary celebration, and the "open house" committee.

Vice President Weaver reported that the question of more insurance coverage had been taken up with the borough council. Richard C. Cole, chairman of the parade committee, said 28 replies had been received to date from the invitations sent out to fire companies and other organizations and that 25 had signified they will participate in the parade.

To date the list of acceptances includes three bands, two drum corps, 11 fire companies, one color guard and five floats, he said.

Reports On Open House
Walter B. Lane, chairman of the "open house" committee, exhibited toy firemen's helmets and lollipops in the form of fire hats which he said will be given to children who attend the affair accompanied by their parents. The "open house" will be held May 10, 11 and 12 at the engine house.

A letter of thanks from Burgess Horace Stine, of Hanover, for services rendered by the Gettysburg firemen at the J. C. Penney store fire in Hanover recently was read by the secretary. A check for \$5 was received from Mrs. Mary Aughinbaugh for services at a fire at her home on York street, and another for \$15 from Arthur M. Gordon for a fire on the Emmitsburg road.

Invitations to parade at Palmyra June 17 and at Waynesboro June 22 were referred to Fire Chief James A. Aumen. Equipment Foreman Eugene S. Sickles reported hand lights on the fire apparatus had been checked and new tools provided for electric, water and gas at fire. A recommendation for a new universal adapter was referred to Chief Aumen.

Receive Cancer Appeal
An appeal was read for a contribution to the Adams County Cancer Society fund, and referred to the donations committee. Vice President Weaver named two new members to this committee, Julius Swope and Rufus Reaver. Vacancies existed through the death of Mervin Crouse and the resignation of John Fox. Donald McSherry is the third member.

Two movies were shown, one, "Stop Fires, Save Jobs," being a fire prevention film showing many causes of fires and how they could have been prevented, and the other a cancer film.

Doctor Wolf Speaks
Dr. Bruce N. Wolff, surgeon at the Warner hospital, followed the appeal for a donation to the cancer fund with a talk on cancer in which he said the Adams county quota is \$3,000.

He refuted several common beliefs, among them statements that cancer is incurable, that it is hereditary, and that it is transferable. Dr. Wolff said that records proved that one-third of the cancer cases have been cured, one-third could have been with earlier diagnosis, and one-third were still incurable.

Much of the money donated to the cancer fund is used for research, he said, and quoted medical authorities who asserted that within 15 years "physicians should be able to cure cancer, perhaps by the use of medicine alone."

Following the meeting, refreshments were served.

The following committee was named to have charge of the food and refreshments at the May meeting at the engine house: Richard Finkbeiner, Guy Poulik, Clair Poulik, Ralph Pissel and Francis Frew.

YANK AIRMEN WIDEN SEARCH FOR 10 FLIERS

Wiesbaden, Germany, April 13 (AP)—Still hopeful of rescuing the 10 crewmen aboard a Navy plane missing in the Baltic, the U. S. Air Force widened its five-day-old search today.

Officers abandoned hope that they had sighted a life raft near the Danish island of Bornholm yesterday. As the weather improved today, they sent ten planes to scour the entire south Baltic area.

Seven more planes were to take off from Copenhagen's Kastrup airport later today to help comb the area. Danish ships also were searching. A Danish Navy flying boat aided in the patrol.

Air Force officers refused to admit discouragement.

May Survive Weeks
"Survivors of sea crashes have been known to live for weeks on the emergency equipment which this plane carried," one spokesman said.

A German steamer reported it sighted last Monday what appeared to be airplane wreckage in the Baltic sea off Oeland Island. This could be a new clue as to the fate of a U. S. Navy plane missing in the Baltic region since last Saturday night.

The ship—the Juno—had no radio and made the report upon arrival at the port of Oermskoelvik, in northern Sweden. The semi-official Swedish news agency, T.T., said the first officer of the Juno described the debris as an airplane cabin.

The missing four-engine plane, he explained, carried enough rubber life rafts for all its 10 crewmen. Each raft had provisions for 10 to 12 days and rubber exposure suits to protect survivors from freezing.

Have Drinking Water
With as much rain as has fallen in the Baltic this week, drinking water would be no problem, the spokesman declared.

Objects sighted yesterday in the sea near Bornholm must have been only debris from fishing ships, the searchers decided.

An American pilot had seen what he thought was a yellow rubber life raft in an oil slick. In the same area a Danish minesweeper later recovered a yellow box, used by fishermen for storing fish.

The oil patch, said Air Force officers, could have been garbage or other refuse from passing ships.

The weather over the Baltic area was better today than yesterday, though still not ideal for searching. Visibility was 10 to 12 miles. Clouds ranged from 1,000 to 3,000. But there were frequent showers.

Wants Planes Armed
In Washington, meanwhile, Senator Bridges (R-N.H.) proposed that American planes patrolling near the Russian borders be "armed to the teeth" and ordered to shoot back if fired upon.

The Soviet Air Force, Bridges said in a speech before the Senate, "ambushed and shot down in cold blood" a relatively slow and unarmed American patrol plane.

This is one way to get to work

In an emergency, telephone workers always seem to find a way to reach their posts. Without call they often volunteer for emergency assignments. During a recent flood, one operator came to work in a rowboat. In a heavy snowstorm, one group arrived on skis and snowshoes, another in a milk wagon. One girl even came in a hearse. This spirit of willingness and determination has become a telephone tradition. We call it "the spirit of service."

For buying and selling; for news worth telling

In business as well as personal matters, distance is no barrier for Long Distance. Use this fast, low-cost telephone service to locate extra "hands" or repair parts for machinery . . . to find your best buys and your most profitable markets. Use it also to keep in close touch with faraway relatives and friends.

A word to be respected

When you hear the word "emergency" on your telephone party line, it usually means there's no time to lose. That's why it's important to give up the line quickly when another party explains why he must make an emergency telephone call. The "good neighbor" policy on party lines works both ways. TRUMAN ENDS HIS 5TH YEAR IN WHITE HOUSE

Washington, April 12 (AP)—President Truman ended his fifth year in office Wednesday in what his friends describe as a confident, happy warrior mood.

The sun-tanned President, fresh from a vacation in Florida, apparently is ready to carry to the people a counter-offensive against Republican attacks on his Secretary of State and other GOP assaults.

Picturing the President as in vigorous health, Senator Lucas of Illinois, the Democratic leader, gave a reporter this description of Mr. Truman:

Confident And Happy

"He is confident and in a happy frame of mind. He thinks conditions throughout the country are good. He thinks world problems are not insoluble. He is ready to fight for his program."

A Republican reaction to Mr. Truman was expressed by Senator Brewster of Maine, chairman of his party's senatorial campaign committee.

"We wish Mr. Truman—but not his program—a long life," Brewster said. "We still consider him the Republicans' best asset."

"We think it is obvious that he is going to campaign for a Truman Congress, since the Democratic 81st Congress has been no better, from his standpoint, than the Republican 80th. We welcome him into the battle on those terms."

New Campaign Ahead

Just about the time he is celebrating his 66th birthday next May 8 Mr. Truman will be heading westward for the first political stoppage of a campaign patterned after his surprisingly successful drive for the Presidency in 1948.

The President's friends and foes agree generally that this tour into the middle and far west—ending with a party rally in Chicago May 15—will give the country some idea what to expect from this year's campaign.

Again it will be Harry S. Truman talking to the people—but there may be a difference. This time he isn't the underdog in a political campaign. He has an election victory over the Republicans hanging from his belt.

Horns are permanent, but antlers are shed periodically.

Pa. Speeds Bonus Checks To Veterans

Harrisburg, April 12 (AP)—Some 182,221 World War II veterans have now received their bonus checks, according to the State Bonus Bureau.

Clyde E. Rankin, bureau director, said the checks represent a total of \$73,233,255.

Rankin reported yesterday that the bureau's check-writing machines are now turning out checks at the rate of 10,000 a day or better.

At the same time, he renewed a request of veterans still awaiting payment to refrain from writing letters of inquiry about the payments.

"Writing the bureau to ask how soon you're going to be paid won't help speed the check to you," he said.

PONDER PROPER STATE FOR WILL

Philadelphia, April 12 (AP)—Judge John P. Roland of Orphans court is considering whether the contested will of Mrs. Mary Fuller Frazier should be probated in Connecticut and not in Pennsylvania.

Lewis H. Van Dusen, an attorney for six cousins contesting the jurisdiction of the will, said yesterday there is no advantage to having the will probated in Pennsylvania. On the contrary, he said, the inheritance tax is much greater than in Connecticut.

Mrs. Frazier died in August, 1948. She bequeathed more than \$1,400,000 of her nearly \$2,600,000 estate to Pennsylvania, Pa., a coal mining town in 1890 near Pittsburgh. It was the birthplace of herself, her parents, and grandparents.

SUSPENSION OF TEACHERS GETS STUDY BY BOARD

Pittsburgh, April 12 (AP)—The city school board pondered today whether to make teacher Dorothy Albert's suspension permanent.

The board suspended the 43-year-old high school English teacher last month after Matt Cvetic, FBI undercover agent, told the House Un-American Activities committee the teacher was pro-Communist.

Yesterday the board listened to testimony by Cvetic and others for five hours, then said it would make its ruling later.

Cvetic, chief witness for the board, got a stiff cross-examination from

Miss Albert's attorney, Hymen Schlesinger. The lawyer questioned Cvetic about testimony that Miss Albert had attended numerous meetings were top Communists met to fix party policy.

Cross-Examination

"Did you know that everyone who attended was a Communist?" Cvetic was asked.

"No, but to the best of my knowledge they were."

Schlesinger asked if Cvetic had ever heard Miss Albert utter one disloyal word against the U. S. government or speak in favor of violence to overthrow the government in Pennsylvania or the United States.

After considering the question carefully, Cvetic replied:

"I can't answer that at this time."

Refused To Quit

Dr. Earl F. Dimmick, county superintendent of schools, testified he had suggested to the teacher that she resign. He said she denied being a Communist and that she refused to quit her job, even when he threatened her with a public hearing.

Earlier yesterday, the Third Circuit Court of Appeals at Philadelphia refused an order which would have prevented the school board from hearing Miss Albert's case.

STORY ABOUT FIRING SQUAD IN WORLD WAR I

By DEWITT MACKENZIE
(AP Foreign Affairs Analyst)

It was midnight and the residents of this French town, in the back area of the British World-War-One zone, had long been snug in their four-posters. The fighting was way off to the east, and there wasn't much to disturb the country calm.

Only Sentry Smith as headquarters knew that not all was as quiet as it seemed, and that there was at least one burner of midnight oil. The colonel in command was still at work. At least he was in his office, and the sentry could see him pacing back and forth with hands clasped behind him and chin on chest.

Had the sentry been blessed with second sight he would have known that the "Old Man" was in distress. No, nothing to do with the fighting up in the lines. Just one of those

smaller problems which sometimes are more difficult than the big ones.

To Be Shot At Dawn

Private Tommy Atkins was to be shot at dawn. One of the colonel's boys. One of the lads he loved like sons.

Si the "Old Man" paced the floor and from time to time glanced anxiously towards the mantel where the clock was racing to meet the sunrise. Dash that clock; why did it go so fast!

Just a few fleeting hours and then—dawn; a firing squad; a pale faced lad with appealing eyes; a quick command; a crash of rifle fire! Why must such things be!

The colonel brushed the moisture savagely from his eyes. He felt like a murderer, for he himself had concurred in the sentence of death on Tommy.

Never Really Bad

The "Old Man" had liked Tommy from the first. The boy had a cheery, winning smile. And he was a good lad, on the whole. Perhaps he was a tiny bit lax about morals occasionally, but morals and war have little in common.

You can't order a soldier to bayonet a fellow being, and then condemn your man for kissing a pretty

face. Tommy may have been thoughtless at times, but he never had been really bad—up to this point.

Now Tommy had been convicted of assault on a girl—one of the unpardonable sins. He had been condemned on charges preferred by a girl of the village. It had been her word against his, with no eye witnesses. And they always give the girl the benefit of the doubt. Besides Tommy had to admit that he had been in the girl's company.

A Tap At the Girl

The colonel had seen this girl. She was of the flashy type. He didn't trust her, and he did trust Tommy. The "Old Man" felt in his heart that she had lied, probably for spite. But there was no proof. And the clock was racing to meet the dawn.

Came a tap at the colonel's door. He threw it open and there, blinking in the unaccustomed light, stood Father, Bon, the village priest.

The colonel knew him well. Indeed, every soldier in the place had a speaking acquaintance with this benevolent old gentleman in the black robe and the funny flat hat which somehow achieved dignity because of the mane of white hair that fell to his shoulders. Father

Bon was a beloved figure.

"It Is My Duty"

"Come in, Father," welcomed the colonel. "You are abroad late to night. What can I do for you?"

The little man dropped his shovel hat in a chair, and stood before the towering frame of the colonel. For a bit the priest stood in silence, clenching and unclenching his hands in obvious mental anguish. Then, with sudden resolution he said:

"It's about Tommy Atkins, colonel. All this night I have prayed on my knees for guidance, and I have it. I have come to tell you something. It is hard, for in a sense I am violating a confidence. Never before have I done this, but it is my duty now.

Can't Be Guilty

"I know this girl, and her mode of life. I have heard her confessions. By putting two and two together, I can see the truth about Tommy Atkins. The lad cannot possibly be guilty."

The priest picked up his hat and turned towards the door. But the colonel held him for a moment with a hand-clasp and a "God bless you, Father."

Alone again, the colonel crossed the room and with a whimsical smile addressed the racing clock:

10-Year-Old Boy Is Sought By Police

Philadelphia, April 13 (AP)—Philadelphia police called on officials of nearby cities for help today in trying to locate Philip Price, Jr., 10, who disappeared from his home 10 days ago.

Philip's parents at first were not alarmed over his disappearance, police said, because he had run away from home several times before and had turned up on each occasion.

He vanished after his mother sent him on an errand at 8 a. m. April 3. Philip has five brothers and sisters.

"You wicked little liar. Run as fast as you want, but there'll be no firing squad at dawn."

And the "Old Man" buried his head in his arm against the mantel.

The population of Manhattan Island in 1776 was 22,000.

149 MEN IDLED

Tower City, Pa., April 13 (AP)—Shutdown of the Brookside washery by the Philadelphia and Reading Coal and Iron company has idled 149 men. The company announced yesterday the closing of the washery because of a surplus of small sizes of hard coal and because of light

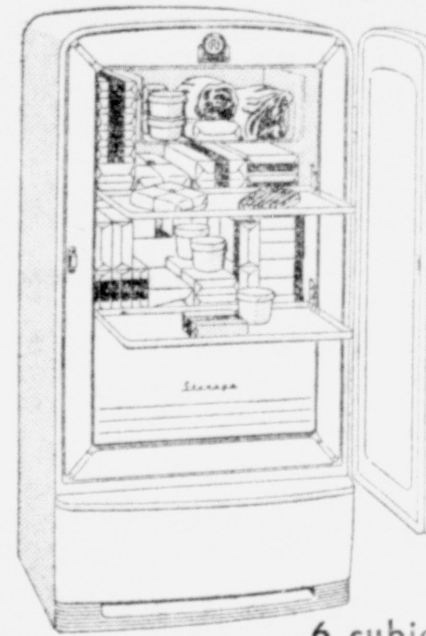

demand. The washery has been processing coal from Calm banks at the ago.

COYOTE-DOG IS VICIOUS BEAST

Washington, April 13 (AP)—A new beast of prey, cunning and cruel, has appeared in the Adirondack mountains and in some other widely-scattered areas of the United States. A coyote-dog hybrid, it is swifter than one of its forebears, the dog, and even more wary than the other, the keenly intelligent coyote, says the Fish and Wildlife Service. And its more vicious than either, it says.

"We've run into the coyote-dog hybrid before," said Clifford C. Presnal, assistant chief of the service's predator control division. "A few years ago it became a menace in Kentucky but we put on a control campaign and cleaned it out. But now, in the Adirondacks it seems for the first time to have become a fairly stabilized type—a type that has been breeding for several generations. Hunting techniques used against coyotes in the thinly-populated west cannot safely be used in the more heavily settled east."

In recent years the animal has been attacking deer, livestock and poultry in increasing numbers in Lewis, Franklin, Essex and St. Lawrence counties, N. Y.

Buffalo, N. Y., April 13 (AP)—"Candyholics" are a worse problem than alcoholics, a Pennsylvania dentist maintains.

"Refined white flour and its products—bread, cookies and pastries—and refined sugar and its products—candies, hard candies and soft drinks—are doing more harm in this country than hard liquor," Dr. Fred D. Miller of Altoona, Pa., said last night. He spoke at a meeting of the Eighth District Dental Society.

Says Oil Imports Peril U.S. Industry

Beckley, W. Va., April 13 (AP)—A National Coal association attorney described imports of foreign oil last night as a rapidly mounting danger to the welfare of America's coal, petroleum and railroad industries.

Robert E. Lee Hall of Washington was one of two speakers at a meeting of some 100 coal operators from the southern West Virginia fields.

"Some equitable law obviously is needed to deal with the (foreign oil) problem which is of national significance," Hall asserted.

He added that unless the problem is solved "America's basic industries of coal, petroleum and railroads will not be able to properly serve the public in years ahead."
